

ZOUATINE ZAKARIA

Full Stack Developer | Communication | Problem Solving

+213780019022 zouatine.de.zakaria@gmail.com zouatinezakaria.vercel.app

SUMMARY

Full Stack Developer with a solid foundation in computer science and experience building production-ready web and mobile applications. Proficient in Php, Dart, Python, JavaScript, TypeScript, React, Next.js, Node.js, MySQL, PostgreSQL. Passionate about clean architecture, scalable API design, and intuitive user experience.

SKILLS

- Teamwork: Collaboration with colleagues, supporting team objectives
- Front-End: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Flutter
- Back-End: PHP, Dart, Node.js, Express.js, MySQL, PostgreSQL
- Tools: Git, GitHub, Docker, Postman, VS Code, Figma

EXPERIENCE

- Freelance Full Stack Developer
Freelance
2022 - Present
Developed websites and mobile applications tailored to client needs, guiding clients step by step throughout the development lifecycle and ensuring high-quality results and satisfaction.
- Remote Data Entry
GARDIENNAGE-PREVOYANCE-SECURITE Company
2023 - 2024
Managed and organized company databases and operational records, ensured data accuracy, performed data entry and verification, and maintained efficient information handling.

PROJECTS

- Zeffrix / Mobile Application
Flutter, Dart, PostgreSQL, Supabase, Responsive Design, AI Assistant
Zeffrix is a modern fitness mobile application designed to make structured gym training simple, personalized, motivating, and accessible. It was built for people that do not necessarily have the knowledge, nor an optimized training plan, nor a tracking system.
- UniConnect / Web Platform
TypeScript, Next.js, React, Node.js, JWT authentication, API routes, AI Assistant, Tailwind CSS, Responsive Design, MySQL, TiDB Cloud
UniConnect is a comprehensive platform that gathers event creators, event attendees, and event responsible in one place, facilitating seamless event management, task assignment, organization, and personnel history.
